

WE ENSURE SUCCESS

Opening The London Taxi Pre-Testing Centre, Master of The Worshipful Company of Hackney Carriage Drivers Alan Parker congratulated John Beesley and his team on their new facility. Situated on the same trading estate as the Deptford SGS Testing Centre, the newly opened garage means taxi owners can have a pre test using the same MAHA equipment as used by SGS. John Beesley said: "I believe this is the future for cab testing. We can ensure success because we are using the same equipment as the SGS test centre. Drivers will only pay for what the cab needs to pass its inspection and be plated."

MAHA equipment is considered to be state of the art in the world of vehicle testing. This equipment is used at all SGS Taxi Testing Centres and is designed to rule out any doubt or confusion – the taxi either passes or fails when tested using the equipment. The London Taxi Pre-Testing Centre has fully trained engineers on hand to help solve any problems you may have with your taxi and the garage offers a full Price Menu so you know exactly what you will be charged.
