

NEW TX4 NOW AVAILABLE AT JUST TAXIS

Just Taxis is delighted to announce that they are now selling new taxis at their garage in Benfleet, Essex. The garage is only 30 minutes drive from the City and many taxi owners will already know the benefits of using Just Taxis. The company, which is owned and operated by two brothers, Robert and Ian Hogg, has achieved its great reputation because of the care they give customers. Robert says: "Here at Just Taxis we pride ourselves on our aftersales service. We know how important it is to taxi drivers when they are buying a used cab that they can rely on the back up service we offer. Now we are offering even more to taxi owners - the chance to be able to buy their new TX4 from a garage they already know and trust." Just Taxis are acting as a sales agent for Condors of Peterborough, who have been an LTI dealership for many years. Rob says: "We believe this partnership will be good for Just Taxis, our customers and for Condors."

Established back in 1997, prices for servicing and used taxis is extremely competitive. Just Taxis is firmly established as an LTI Approved Service Agent having been appointed by LTI Vehicles in 2003. Rob continued: "Getting LTI Service Dealer status meant we were able to become one of the country's leading specialists in the service and maintenance of all LTI products. We are delighted that now as well as offering a great selection of used taxis, we can offer our customers the chance to buy a TX4. This taxi has been well received by cab owners and we are sure we can offer the best levels of customer service to anyone choosing to buy a TX4 at Just Taxis." The company are also happy to help with arranging finance and insurance for taxis.

For owners who have not yet used Just Taxis the garage has a fully equipped workshop with technicians who are fully trained in the requirements of looking after taxis. Just Taxis understands the needs of a taxi owner and appreciates that sometimes breakdowns occur which need attention fast.

As the workshop has extensive facilities, down time is kept to the minimum and it will not cost a fortune to get back on the road. The parts used are all LTI Parts. The garage specialises TXII and TX4 diagnosis and repair, as well as being able to repair gearbox problems as the technicians can strip down the gearbox, identify the problem and then re-build. Tyres and exhausts are also kept in stock. Owners can be assured of a quick efficient service that will keep them on the road earning.

You will find Just Taxis at 10 Parsons Road Manor Trading Estate BENFLEET, Essex SS7 4PY. Their telephone number is 01268 795895, or email sales@justtaxis.com or visit the website at www.justtaxis.com

MORE UK TAXIS GET CREDIT CARD AND CABCHARGE SYSTEMS

Computer Cab plc is continuing to expand its presence in the UK taxi market with a new system allowing taxi drivers to accept debit and credit cards, alongside Cabcharge cards. Previously only taxi drivers subscribing to a Computer Cab plc London radio circuit had the ability to accept Cabcharge cards, the world's leading taxi charge card system, but now more taxis outside of London can accept Cabcharge - as well as credit and debit cards. A standalone card payment system has been developed which allows easy acceptance of all major debit and credit cards using safe and secure Chip and Pin technology. In addition these new terminals can also accept Cabcharge cards from all over the world.

Malcolm Paice, Head of Operations for Computer Cab plc commented: "More and more taxi users in and around London expect to be able to use debit or credit cards to pay for their taxi fare so demand from drivers for an easy to use and affordable credit card system is rising. This simple system allows taxi drivers to not only accept credit cards but also all major debit cards and uses Chip and Pin for secure and assured transactions. The fact that more taxi drivers can also accept international Cabcharge cards really helps strengthen the Cabcharge product which is enjoyed by business taxi users across the globe."

The new Cabcharge terminals are already rolling out in areas outside of London where credit and debit card acceptance in taxis is greatly desired and

the possibilities of having access to Cabcharge card holders are still high due to the close proximity of London. Licensed taxi drivers from Dartford were some of the first to benefit from the new Cabcharge system, giving these first Dartford drivers a serious competitive edge over other taxis and minicabs in their area with a safe and secure card payment system which is proving popular with the public. The devices have their own standalone printer so a full printed receipt for both swiped cards and Chip & Pin cards can always be provided.

Malcolm Paice added: "For areas such as Dartford this system is ideal as it is available at zero cost to the driver and it instantly gives them an edge over other taxi services in their region. There are a number of towns in the Home Counties that will really gain from having such a simple solution like this and they can also benefit from the growing number of Cabcharge account customers."

Other Computer Cab plc business units across the UK are also benefiting with new several hundred vehicles in Aberdeen, Edinburgh and Birmingham already rolling out the new systems. The system can work anywhere in the UK and utilises GPRS technology for fast and accurate transaction authorisations.

The system is available at zero cost depending on the value of transactions processed through the terminal each month. People interested in the system can contact Computer Cab plc on 0207 432 1600.
