

ASCOTT CAB CO APPOINTED AS NEW SERVICE DEALER

Based in London SE8, Ascott Cab Co has been providing London's cab trade with routine servicing and unscheduled repairs for many years as well as supplying great deals on pre-owned cabs and Digitax meters. The company is run by the Ascott family; many mature drivers will remember the days when Micky Ascott ran the garage in Druid Street. Micky is sadly missed but must still look down from above on the great display of his beloved Millwall Football Club memorabilia at the garage. The family support for the football team continues and it is there that the Digitax meter change takes place once again this year. Now the Ascott garage has been appointed as an LTI Vehicles Service Dealer.

Trained staff and a fully equipped workshop and bodyshop ensure downtime is kept to a minimum and repair work is carried out to the highest possible standards. On site, there is also insurance brokers, Quotax. "Taxi drivers in London can be confident that we work hard to offer them excellent service and support," said a spokesman for Ascott Cab Co. "We realise that time off the road means loss of earnings, so our priority has always been to get drivers back. Should any driver experience a problem, we look forward to welcoming and providing them with the added peace of mind that their taxi will soon be looking and feeling like new."

Peter Rigden, General Manager of M&O London, said: "In continuing the support of the rapidly growing TX4 population in London, I am delighted to welcome Ascott Cab Co to the family of LTI Mann & Overton Service Dealers. Ascotts have an extremely high reputation for customer service in the London trade and we are keen to further develop and strengthen our business relationship with them."

This brings the total number of official LTI service dealers in London up to six.
