## ALLIED VEHICLES GET INTO LONDON!

Well known to the London taxi trade for its Peugeot E7 taxi, Allied Vehicles produces wheelchair accessible cars, MPVs and minibuses and other special purpose vehicles. The City of London Corporation has ordered a battery-powered eBoxer from Allied Electric, the electric vehicle division of the Allied Vehicles Group, commissioned under a new incentive programme funded by the Department for Transport. This is the first local authority in the UK to obtain an electric van from Allied which has been funded by the LCVPP. The Peugeot eBoxer will be used by City of London for their library operations based at the Barbican Library.

Allied Electric's Managing Director, Paul Nelson, said: "Technology has advanced rapidly over the past few years and all-electric vehicles now offer a practical, zero-emissions alternative, especially for congested city centre environments. I'm delighted that one of the first vehicles operating in the programme will be providing an important public service at the heart of the city."

Allied also produces an electric E7 taxi.
